THANK YOU!

The most important event for the Romanian surveying professional community reached already its 6th edition! **Romanian Surveying Week (RSW)**, organized by the Romanian Surveyors Union will be hosted by Timisoara, between 21 and 25 of October.

We are enthusiastic with organizing this event in partnership with the **Faculty of Civil Engineering from Politehnica University Timisoara** and the **Faculty of Agriculture from University of Life Science "King Mihai I" from Timisoara**. This year we are happy to welcome the representative of **FIG Commission 2** and **FIG Commission 8**, having their own events within RSW. Topics as geodesy, surveying, cadastre, professional education, spatial planning and development, local administration, GIS and other related areas, will be of interest for Romanian and foreign professionals from both private and academic sectors.

We are looking forward to welcoming you in Timisoara, the capital of Romania's West development region, for **the sixth edition of Romanian Surveying Week!**

Eng. Mircea AFRĂSINEI
*President of Romanian
Surveyors Union*

Dear colleagues, students and professional surveyors, it is a great honor to welcome you to the **Romanian Surveying Week**, event which will be held in Timisoara at the two universities, namely: **Politehnica University Timisoara** and **University of Life Science "King Mihai I" Timisoara**.

This week brings close-up the surveying area and the way in which knowledges, technology and innovations in this field are transforming key sectors such as construction, architecture, agriculture and sustainable development in Timisoara. In this context, I emphasize the essential role that surveying plays in infrastructure development and smart resource management.

The aim of the programmed activities is to encourage relevant debates and facilitate collaboration between students, professors and practitioners, academia, business and public administration thus contributing to the improvement of professional training and research in the field.

I invite you to actively participate, share ideas and connect with other professionals.
I look forward to your contributions, which will enrich the discussions and strengthen the geodesy community in Romania.

**Assoc.
Prof.PhD.eng. Florin Drăgan**
*Rector of the Politehnica
University of Timișoara*

Dear guests, distinguished colleagues,
University of Life Science "King Mihai I"

Timisoara has the great honor to welcome you to our campus, on the occasion of the **Romanian Surveying Week 2025**, a reference event for the Romanian surveying community.

Our participation in this initiative of the **Romanian Surveyors Union** reflects our institution's commitment to supporting academic excellence and cooperation between the academic and professional environment, in a field essential for the progress and modernization of contemporary society.

We congratulate all the participants and express our confidence that the debates and activities of this week will contribute to the consolidation of knowledge and the development of new directions of collaboration.

We wish you success and a pleasant stay at our University!

**Prof. Habil. PhD. Cosmin
Alin Popescu**
