Romanian Surveying Week, the most important event of the geodetic professional community organized by the Romanian Surveyors Union, will be hosted by Bucharest, between 23 and 26 of October. The fifth edition of the event will include the International Symposium GeoPreVi 2024, FIG Young Surveyors European Meeting and FIG Commission 9 and EGoS workshop. Topics as geodesy, surveying, cadastre, valuation and land management, local administration, GIS and other related areas, will be of interest for professionals from both private and academic sectors. We are looking forward to welcoming you in Bucharest, the capital of Romania, for the fifth edition of **Romanian Surveying Week!**

Eng.
Mircea AFRĂSINEI
President of Romanian
Surveyors Union

Prof. univ. dr. habil.
Gheorghe BADEA
Dean of the Faculty of Geodesy,
Technical University of Civil Engineering Bucharest

The Romanian Surveying Week, organized this year in Bucharest, has, along with the Romanian Surveyors Union, the **Faculty of Geodesy** from UTCB, the institution where our professional organization was founded in 1990. It is a great honor, as a faculty, to be involved in the organization of the **International Symposium GeoPreVi 2024** within the SGR. For **almost 70 years** several thousands of geodesy engineering professionals have graduated from this school. They have, through their work, served the community through skilled services, responsible ones.

Let the meeting with the occasion of this event find us all together, wherever we come from private sector, equipment/programs distributors, local administration, central authorities in the field, university centers, guests from home and abroad.
