

## INVITATION

Dear Guests,

*The **Romanian Surveyors Union** together with the "**Gheorghe Asachi**" **Technical University of Iasi, Faculty of Hydrotechnics, Geodesy and Environmental Engineering** announces the organization of the third edition of the **Romanian Surveying Week**, which will include the **international scientific symposium GEOMAT 2022**.*

*This year, at the 9th edition of the GEOMAT symposium, the main theme of the debates will be **Geospatial Data Management for Built Environment**, including transport infrastructure, technical and civil utility networks, but also the urban space of residential, commercial, administrative, cultural or logistic-industrial buildings.*

*Romania is undergoing an accelerated process of development, modernization and rehabilitation of transport infrastructure. Whether we are talking about road, rail, air or maritime transport infrastructure, the role of surveying professionals is essential in the collection and proper management of spatial data using modern methods, which provide the basis for the digitalization of activities in this field. The Romanian Surveying Week aims to create the basis for constructive meetings and discussions between professionals in the field of spatial data collection and management and those in the field of transport infrastructure, organizing round tables and technical sessions dedicated to this topic with an important focus on road and rail.*

*There will also be debates on how to implement and apply the **National Program for Cadastre and Land Registry (PNCCF)**, the **National Agency for Cadastre and Land Registration (ANCPI)** being one of the most important partners in the organization and implementation of this scientific event.*

*The **Romanian Surveying Week**, the most important event of the Romanian surveying community, together with the traditional **GEOMAT symposium**, will take place this year between 15-19 November 2022, in the Congress Hall Palace Iasi. The program of the event and other organizational details can be found at the following web addresses: <http://geomat.ro/> and <https://sgr.ugr.ro/>.*

*Hoping you will accept our invitation, we thank you and look forward to seeing you in November in Iasi!*

Eng. Mircea Afrăsinei  
President of Romanian Surveyors Union,

Assoc.Professor PhD.Eng. Nicolae Marcoie  
Dean of Faculty of Hydrotechnics,  
Geodesy and Environmental Engineering
